Capitol Update

CAPITOL UPDATE from the CFRW Legislative Analysts Desk

Issue #37 - September 9, 2021

Submitted by the CFRW Legislative Analyst Committee:

Gretchen Cox, Val Emick, Lou Ann Flaherty, Elaine Freeman & Theresa Speake

Recall Update -

With only one week to go, we encourage all of you to be active with your local GOP and other recall groups. [Volunteer to make phone calls and knock on doors!](#) This is how our opponents took California away from us, and this is how we will take it back! The media wants you to think the recall is a lost cause... but if Democrats weren't worried, the President and VP wouldn't be out here

stumping for Newsom with everything else going on that they SHOULD be attending to. (probably ordered to do so by Madam Pelosi). There is a good chance we can replace Newsom by around this time next week!

[AB 994 - The Personal Income Tax Law and the Corporation Tax Law, generally define "gross income" as income from whatever source derived except as specifically excluded. This bill, for taxable years beginning on or after January 1, 2021 and before January 1, 2026, would exclude under both laws, from gross income the amount of a grant awarded pursuant to the California Small Business COVID-19 Relief Grant Program. A break for business in California. Still in Committee.](#)

A4B 108, Gender neutral retail departments- Existing law, the Unruh Civil Rights Act, specifies that all persons within the jurisdiction of the state are free and equal, and no matter their sex, race, color, religion, ancestry, national origin, disability, medical condition, genetic information, marital status, sexual orientation, citizenship, primary language, or immigration status, are entitled to the full and equal accommodations, advantages, facilities, privileges, or services in all business establishments of every kind. This bill would require a retail department store that is physically located in California that has a total of 500 or more employees across all California retail department store locations that sells childcare items or toys to maintain a gender neutral section or area, to be labeled at the discretion of the retailer, in which a reasonable selection of the items and toys for children that it sells shall be displayed, regardless of whether they have been traditionally marketed for either girls or for boys.

Beginning on January 1, 2024, the bill would make a retail department store that fails to comply with these provisions liable for a civil penalty not to exceed \$250 for a first violation or \$500 for a subsequent violation, as provided.

Status: Passed the Assembly and the Senate. Being prepared for submittal to the Governor.

FYI - SB 9 and SB 10, two bills we have written about previously that will forever change the housing landscape in CA., by virtually eliminating R-1 zoning and will turn many neighborhoods into mixed single and multi-family neighborhoods, have both passed in the Senate and the Assembly, and are awaiting the Governor's signature.

It is shocking that any Republicans supported these bills, but some did.

[AB 37](#)- Mail-in Ballots- This bill, similar to SB 29, extends the practice of sending mail in ballots to every registered voter for all elections, whether requested or not.

Status: This bill has passed in both the Assembly and Senate and is awaiting the Governor's signature.

Constitution 101: The Meaning and History of the Constitution

The Constitution established a limited government, but a government with sufficient powers to protect Americans' God-given rights to "Life, Liberty, and the pursuit of Happiness." This course examines the design and purpose of the Constitution, the challenges it faced during the Civil War, how it has been undermined for over a century by progressivism and post-1960s liberalism, and how limited government under the Constitution might be revived.

MALIBU

Malibu Colony

Malibu Colony was one of the first areas with private homes after Malibu was opened to development in 1926. As one of Malibu's most famous districts, it is located south of Malibu Road and the Pacific Coast Highway, west of Malibu Lagoon State Beach, and east of Malibu Bluffs Park (formerly a state park).

[May Rindge](#) had protected the Malibu coast with only a few wealthy Hollywood stars having vacation homes there. Rindge opened up this small area for development in 1926. The long legal battle to protect her beloved Malibu coast had been costly and she eventually died penniless. Long known as a popular private enclave for wealthy celebrities, the Malibu Colony today is a [gated community](#), with multimillion-dollar homes on small lots. The Colony has views of the Pacific Ocean, with coastline views stretching from [Santa Monica](#) to [Rancho Palos Verdes](#) to the south (known locally as the *Queen's Necklace*) and the bluffs of [Point Dume](#) to the north.

High technology in Malibu

The first working model of a [laser](#) was demonstrated by [Theodore Maiman](#) in 1960 in Malibu at the [Hughes Research Laborator](#) (now known as HRL Laboratories LLC). In the 1990s HRL Laboratories developed the FastScat computer code, for frequency domain algorithms and implementation, recognized as perhaps the most accurate code in the world for radar cross-section calculations. [TRW](#) built a laboratory in Solstice Canyon without any structural steel to test magnetic detectors for satellites and medical devices.
