CAPITOL UPDATE from the CFRW Legislative Analysts Desk

Issue #39 - September 23, 2021

Submitted by the CFRW Legislative Analyst Committee:

Gretchen Cox, Val Emick, Lou Ann Flaherty, Elaine Freeman & Theresa Speake

The Governor has signed the following bills. This is just the beginning of what other bills may be signed prior to the October 10 deadline. Remember too, that the Governor can allow bills to become law without his signature.

SB-9 (Wiener) - This bill will allow a single-family lot to subdivide and build a second home. No local approval will be required.

SB-10 (Wiener) - This bill authorizes a local agency to pass an ordinance to zone any parcel for up to 10 units of residential density per parcel, at a height

specified in the ordinance, if the parcel is located in a transit-rich area, a jobs-rich area, or an urban infill site.

Here are a few bills we have written about previously which are on the Governor's desk awaiting his signature.

[SB321](#) - Employment safety standards: advisory committee: household domestic services

[AB3](#) - Exhibition of speed on a highway: punishment.

[SB539](#) - Property taxation: taxable value transfers.

[AB110](#) -Fraudulent claims for unemployment compensation benefits: inmates.

[AB 829](#)- Foster children: immigration counsel and guardianship. This bill would require a county to make its best efforts to provide an undocumented minor or nonminor dependent in foster care under the jurisdiction of the juvenile court with access to immigration legal services, as specified.

Constitution 101: The Meaning and History of the Constitution

The Constitution established a limited government, but a government with sufficient powers to protect Americans' God-given rights to "Life, Liberty, and the pursuit of Happiness." This course examines the design and purpose of the Constitution, the challenges it faced during the Civil War, how it has been undermined for over a century by progressivism and post-1960s liberalism, and how limited government under the Constitution might be revived.

MALIBU

Malibu Colony

Malibu Colony was one of the first areas with private homes after Malibu was opened to development in 1926. As one of Malibu's most famous districts, it is located south of Malibu Road and the Pacific Coast Highway, west of Malibu Lagoon State Beach, and east of Malibu Bluffs Park (formerly a state park). [May Rindge](#) had protected the Malibu coast with only a few wealthy Hollywood stars having vacation homes there.

Rindge opened up this small area for development in 1926. The long legal battle to protect her beloved Malibu coast had been costly and she eventually died penniless.

Long known as a popular private enclave for wealthy celebrities, the Malibu Colony today is a [gated community](#), with multimillion-dollar homes on small lots. The Colony has views of the Pacific Ocean, with coastline views stretching from [Santa Monica](#) to [Rancho Palos Verdes](#) to the south (known locally as the *Queen's Necklace*) and the bluffs of [Point Dume](#) to the north.

High technology in Malibu

The first working model of a [laser](#) was demonstrated by [Theodore Maiman](#) in 1960 in Malibu at the [Hughes Research Laborator](#) (now known as HRL Laboratories LLC). In the 1990s HRL Laboratories developed the FastScat computer code, for frequency domain algorithms and implementation, recognized as perhaps the most accurate code in the world for radar cross-section calculations. [TRW](#) built a laboratory in Solstice Canyon without any structural steel to test magnetic detectors for satellites and medical devices.
